

Vishal Kumar Mathuri

BLOCKCHAIN & WEB3 TRAINER | SOLIDITY / ETHEREUM | FULL-STACK WEB3

📞 9082135308 ✉ vishal789mathur@gmail.com 📍 Patna, India 🔗 [linkedin.com/in/vishal-mathuri/](https://www.linkedin.com/in/vishal-mathuri/) 📄 github.com/vishalmathuri 🌐 Website: vishal-website-beta.vercel.app

SUMMARY

Blockchain & Web3 Trainer and Technical Mentor combining **4+ years of EdTech and teaching experience** with hands-on blockchain development. Skilled in delivering instructor-led training in classroom and mentoring-based formats, developing learner-focused content, structured learning journeys, hands-on coding labs, and project mentoring, with practical expertise in **Ethereum, Solidity, Smart Contracts, Remix IDE, Foundry, Hardhat, Web3.js/Ethers.js, dApp Development, React.js, Node.js, NFTs, DeFi, Rust, and Solana**.

Able to simplify complex blockchain and web development concepts, conduct hands-on labs, guide learners through real-world projects, and support interview preparation and portfolio readiness for job-ready outcomes.

TRAINING & TECHNICAL SKILLS

Blockchain & Web3: Ethereum, EVM, Solidity, Smart Contracts, ERC-20, ERC-721, NFTs, DeFi fundamentals, dApp Development, wallets, MetaMask, gas optimization, contract security

Web Development: JavaScript, TypeScript, HTML, CSS, React.js (frontend frameworks), Node.js, Express.js (backend fundamentals), REST APIs, Ethers.js, Web3.js

Smart Contract Tools: Foundry, Hardhat, Remix IDE, OpenZeppelin, unit testing, fuzz testing, invariant testing, contract deployment and verification

Solana: Rust, Solana, Anchor, PDAs, TypeScript, wallet integration

Training & Mentoring: Instructor-led training (ILT), classroom facilitation, lesson planning, project-based learning, coding labs, assignments, assessments, learner mentoring, progress tracking, technical documentation, communication and presentation skills

Developer Tools: Git, GitHub, VS Code, IPFS/Pinata, Vercel, Render

TEACHING HIGHLIGHTS

- **4+ years of EdTech and teaching experience** in educational content development, learner support, and structured program delivery.
- Delivered part-time coding sessions for Grade 10 learners, six days per week, with lesson plans, assignments, assessments, and personalized feedback.
- Designed and executed structured learning journeys with a **96% success rate** and supported learning operations across 200+ student batches.
- Experienced in project-based learning, debugging support, GitHub portfolio guidance, and explaining technical concepts to learners with varying skill levels.

PROFESSIONAL EXPERIENCE

Coding Teacher

Jul 2025 - Mar 2026

A2S Seva Foundation

- Delivered part-time daily coding sessions for Grade 10 students, six days per week, in a classroom-based instructor-led format.
- Designed lesson plans, coding assignments, and assessments aligned with learner goals.
- Mentored students through project-based learning, progress tracking, debugging, and personalized feedback.
- Strengthened problem-solving and logical reasoning through practical programming exercises.

Senior Content Developer

Jul 2019 - Mar 2023

Think & Learn Pvt Ltd (BYJU'S)

Bengaluru, IN

- Managed learning operations for 200+ student batches across multiple grade levels with **100% scheduling accuracy**.
- Designed and executed structured Learning Journeys for digital academic programs, achieving a **96% success rate**.
- Created interactive educational content, mock tests, and learning modules for BYJU'S TV and BHELP programs.
- Improved an automated concept-tagging workflow to **95% classification accuracy** through systematic quality checks.
- Resolved academic and learner-support requests through Salesforce with **98% resolution accuracy** within 24 hours.

Blockchain Developer

Jul 2025 - Present

Freelance

- Build Solidity and Web3 applications spanning NFT, DeFi, identity, access-control, and token-oriented use cases.
- Integrate smart contracts with React.js frontends, Node.js services, REST APIs, wallets, and EVM networks.
- Apply OpenZeppelin security patterns and Foundry/Hardhat testing practices, creating practical material for hands-on blockchain instruction.

SELECTED PROJECTS FOR HANDS-ON TRAINING

[NFT Marketplace](#)

Tech Stack: Solidity • ERC-721 • OpenZeppelin • React.js • Ethers.js • Node.js • IPFS

Links: [GitHub](#) • [Live \(Vercel\)](#)

- Full-stack Web3 project demonstrating NFT minting, listing, trading, wallet integration, metadata storage, and deployment.
- Useful for teaching ERC-721 standards, MetaMask/Ethers.js wallet workflows, and IPFS-based decentralized storage.

[Production-Grade EVM Lending Protocol](#)

Tech Stack: Solidity • Foundry • Chainlink • OpenZeppelin

- Links:** [GitHub](#)
- Lending protocol covering supply, withdraw, borrow, repay, liquidation, interest accrual, and health-factor solvency checks.
 - Demonstrates DeFi risk engineering, Chainlink oracle integration, and Foundry unit/fuzz/invariant testing — ideal for teaching security-first smart-contract design.

[Solana Crowdfunding Protocol \(In Development\)](#)

Tech Stack: Rust • Solana • Anchor • PDAs • TypeScript

Links: [GitHub](#) • [Live \(Vercel\)](#)

- Crowdfunding protocol demonstrating campaign creation, SOL contributions, deadlines, withdrawals, and refunds.
- Illustrates Anchor account validation and PDA-based state design — useful for introducing learners to the Solana/Rust programming model.

[Cross-Chain Messaging Protocol — EVM ↔ Rust \(In Development\)](#)

Tech Stack: Solidity • Rust • Cross-Chain Messaging • Relayer Architecture

Links: [GitHub](#)

- Interoperability project useful for teaching bridge architecture, relayers, and message verification.
- Covers replay protection and cross-chain security concepts relevant to advanced blockchain coursework.

BLOCKCHAIN ENGINEERING INTERSHIPS

AI, Web3 & Full-Stack Developer EtherAuthority • Building Web3 dApps integrating smart contracts with frontend and backend systems. • Working with ERC-20/ERC-721 standards and participating in smart-contract security reviews.	Mar 2026 - Present Remote
Full Stack & Blockchain Developer Leafny Web Pack • Developed Solidity/Ethereum smart contracts and decentralized application features. • Collaborated with the development team on technical solutions and testing.	May 2025 - Jul 2025 Remote
Blockchain Developer Estatos • Worked on tokenization and DeFi protocols, contributing to smart-contract optimization and deployment.	Jan 2025 - Feb 2025 Remote
Solidity Developer Nexus Network • Developed bridge contracts for relayer-based cross-chain transactions and contract security practices.	Jul 2024 - Dec 2024 Remote

EDUCATION

Post Graduate Diploma in Blockchain IIIT Bangalore & upGrad • Coursework in Ethereum smart contracts, JavaScript, Node.js, Hyperledger Fabric, DeFi, KYC systems, and cross-chain frameworks.	Mar 2023 - Mar 2024
Dual Degree (B.Tech + M.Tech), Energy Science & Engineering Indian Institute of Technology Bombay (IIT Bombay)	Jul 2014 - Jul 2019

TRAINING AREAS

Blockchain Fundamentals | Ethereum & EVM | Solidity | Smart Contracts | ERC-20 / ERC-721 | NFTs | DeFi | MetaMask & Wallets | Remix IDE | Hardhat | Foundry | Ethers.js/Web3.js | dApp Development | HTML/CSS/JavaScript | React.js | Node.js | Git/GitHub | Rust & Solana Fundamentals | Project Mentoring | Interview Preparation | Career Guidance
